About South West Museum Development

Our mission: *To effectively deliver the regional museum development programme and maximise the impact of this funding for museums across the region.*

The Arts Council England Museum Development programme was launched in 2012 to support Accredited museums, and those formally working towards Accreditation, across England. The programme supports the museum sector to meet and exceed national standards, raise ambition, drive excellence and strengthen resilience. Consisting of nine providers in each of the English ONS regions, the South West Museum Development programme is responsible for supporting museums in the south west.

For the period April 2018-March 2022 the Arts Council has awarded the South West Museum Development Programme (SWMD) £2,126,020 as a National Portfolio Sector Support Organisation to deliver Museum Development Services for the 210 Accredited museums in the South West. South West Museum Development's core client base is to support museums without core funding from Department Culture Media and Sport or in receipt of Arts Council England funding as National Portfolio Organisations.

The Programme also holds funded Memorandums of Agreements with 18 local authorities across the region contributing additional public investment of approximately £120,000 per annum in the local museum development officer network at county or sub regional level. In addition to this investment South West Museum Development delivers a range of consultancy, project funded and charged services alongside the core programme funded by Arts Council England.

The South West Museum Development programme is hosted by Bristol Culture, Bristol City Council.
